

# SPECIFICATION SHEET

# Sheet Pile Remover

## MACHINE INTRODUCTION

The Sheet Pile Remover, developed bij DCN Diving, is a powerful diamond wire cutting machine specifically designed for safe and precise seam cutting in steel sheet piling walls. Suitable for both above-water and underwater operations.

## TECHNICAL SPECIFICATIONS

### Machine weight

3000 kg

### Frame

Positions and security clamps the machine on the sheet piling wall

### Cutting carriage

Moves along the frame, carrying the diamond wire for cutting

### Hydraulic Power Pack

Drives the cutting wire monitor with adjustable flow speed settings

### Control Unit

Provides full control over wire travel speed, direction and real-time monitoring of machine functions
